About our clients - General and Academic

Our course participants come from a range of nationalities, backgrounds and age groups. While you are at the school, you will study with a wide variety of people, which keeps each course stimulating and different. Participants are often mature, and in Canterbury we offer a dedicated General English course for clients aged 30 or over.

Reasons for studying - Intensive General English

We asked our IGE students why they had chosen the course.

For my university studies 30%
To live in an English-speaking country 2%
For general interest 11%
To travel/communicate internationally 14%

We have worked in partnership with the London School of English since 2009 as we recognise the great work being done by the LSE team in preparing students for success at university level.
